

Helicopter and Fixed Wing Aircraft

**Interior Solutions**

**Cabinetry**

## PRODUCT EXCELLENCE AND WORLD-CLASS CRAFTSMANSHIP

RAMM Aerospace has been hand-crafting quality cabinetry since 2008. In addition to the cabinetry products supplied for production aircraft, RAMM also offers refurbishment of existing bulkheads, armrests, side ledges, work stations, lavatories and aft vanities. Our experts and artisans are best known for their attention to detail, building quality into every creation, every time. The overall product excellence and world-class craftsmanship positions RAMM Aerospace as an industry leader in aircraft fine cabinetry.

We are also pleased to work with customers one-on-one to fulfill custom requirements. Our project managers work closely with customers to understand the vision and ensure that each and every unique project is successfully completed on time and on budget. RAMM Aerospace offers a wide range of products and services from in-aircraft repair to a full interior refurbishment for both helicopters and fixed wing aircraft.

## Key Products and Services

- Completion and refurbishment of bulkheads, lavatories and enclosures
- Completion and refurbishment of armrests, side ledges, work stations and aft vanities
- Creation of new custom hand-crafted cabinetry
- Refurbishment of existing cabinetry
- In-aircraft repairs and refinishing

## About RAMM Aerospace

RAMM Aerospace has been providing quality interior products and services to the aviation industry since it was founded in Montreal, Canada in 2008. The company is best known for its meticulous attention to detail and world-class craftsmanship in the manufacturing and finishing of business and commercial cabinetry, upholstery and loose equipment. RAMM offers a wide range of services from in-aircraft repair to full interior refurbishment, including re-upholstery of cockpit and crew seats in commercial and executive aircraft, as well as helicopters. Initially supporting the fixed wing market, RAMM recently diversified and now also provides solutions to the helicopter industry. The company's in-house engineering capabilities enable a timely execution of customer-driven STC solutions.
